JOBSITE SAW WITH MOBILE CART & FENCE SYSTEM

SAW01-JSS-MCA
10" Jobsite Saw with Mobile Cart & Fence System
The SawStop Jobsite Saw packs all of the safety of SawStop's revolutionary blade brake, into a compact, portable table saw. Landing somewhere between a bench top saw and a contractor's saw in terms of size, the SawStop Jobsite Saw offers numerous benefits of both. It includes a pedal-actuated folding stand—one press and it unfolds from a compact vertical storage to cutting mode. The 8" wheels act as a dolly allowing you to move up stairs and through rough terrain.

TABLE SAW BRAKE CARTRIDGE

Table Saw Brake Cartridge
The heart of SawStop's safety system, these brake cartridges quickly spring into action to stop the blade from spinning, preventing serious injury when skin comes in contact with the blade. Each brake is single use only and must be replaced if safety system is activated during operation.

CT 36 AC DUST EXTRACTOR
The CT AutoClean has an integrated filter cleaning mechanism that periodically knocks the dust free of the filter. This guarantees maximum air flow and prevents the filter from becoming caked with dust. The filter cleaning frequency is controlled by a dial and can be completely disabled. The CT AutoClean can be used as a regular dust extractor when run without the AutoClean enabled.

CT MINI and CT MIDI are Festool’s most portable mobile dust extractors. They are compact and light weight, but have enough capacity for common jobsite tasks. The CT MIDI is slightly larger in size, but offers increased capacity for heavier on-site use. Sporting large wheels and double casters, these units can easily negotiate obstacles in the shop or worksite.

**PNEUMATIC FRAMING STRIP NAILER**

**PF-350S**
- **PowerMaster Plus™ Nailer**
  - Unmatched Power-to-Weight Ratio
  - The best in the industry! All the power needed to drive into engineered lumber.
  - The Lightest 3-1/2” Nailer - Reduce arm fatigue with the lightest nailer in its class.
  - Ergonomic Design - Center of gravity is closer to the trigger, providing better balance. Also offers the lowest recoil for a tool of its size.

**S200-S16**
- **16 Gauge Framing Stapler**
  - Extend Bumper Life - over 3x the life of ordinary bumpers.
  - Drive 12 fasteners per second.
  - Improved Upper Piston Valve - virtually eliminates valve seizure even under adverse conditions such as dust, high heat & humidity.
  - Top Load- For fast, easy loading, holds two strips
  - Durable- For everyday use and long tool life
  - Versatile- Drives 3/4” to 2” standard crown staples
  - Lightweight- Decrease fatigue and increase productivity

Farrell Equipment & Supply Co., Inc. - Trade Customs

The compilation and checking of a general catalog of supplies and machinery is complicated, involving many thousands of product numbers, dimensions, etc. and absolute perfection is not a commercial possibility. Every endeavor has been made to have the latest lists, dimensions, descriptions and designs throughout this catalog, but we do not guarantee accuracy. If any errors or misprints have escaped our checkers and printers, we are not responsible for them, and they are subject to our correction. All information contained in this catalog, pertaining to strengths and proper working loads of material, tools or machines is derived from information compiled by the manufacturers for the convenience of the buyer. We assume no responsibility for the accuracy of this information.

Manufacturers are constantly changing designs, specifications and accessories on many items and these are subject to change without notice. Illustrations are subject to modification. All references in this catalog are for description only and are not representations or warranties of any kind or nature.
